| Item   | Description   | Price   | Quantity | Total Price |
|--|---|---------|----------|-------------|
| 55-gallon Rain Barrel<br><input type="checkbox"/> Black (A)<br><input type="checkbox"/> Grey (B)<br><input type="checkbox"/> Blue (C)<br><input type="checkbox"/> Terra Cotta (D)<br><input type="checkbox"/> Green (not pictured) | The barrels are upcycled and sanitized plastic barrels, once used for food product shipping. They are between 35 and 42 inches tall. They have been modified into rain barrels with a spigot, linking fitting at the bottom, an overflow fitting at the top, and a screen enclosure for the top. Please select a color at the left. | \$75.00 |          |             |
| 50-gallon Rain Barrel<br>Terra Cotta   | See above description.  | \$70.00 |          |             |
| Flex Elbow 2x3 inches  | The flex elbow is used to attach from the downspout to the barrel opening for discharge.  | \$10.00 |          |             |
| Flex Elbow 3x4 inches  | See above description.  | \$15.00 |          |             |
| Automatic Water Diverter   | The diverter will divert water to fill the barrel while it is empty and divert back to the downspout once the barrel is full. Fits both a 2x3 and 3x4 inch downspout.   | \$25.00 |          |             |
| Wooden Pedestal  | Raises the barrel off the ground 12 inches.   | \$20.00 |          |             |
| Plastic Barrel Netting   | The netting comes with clips to hold net around barrel. This is used to allow a vine plant to grow on the barrel for decoration.  | \$10.00 |          |             |
| Linking Hose   | Used to link multiple barrels together. The hose is ½ inch by 4 foot.   | \$10.00 |          |             |
