POLLINATION DETAILS

APPLES: The Apple trees are coded by color. It is best to choose two or more from each group to ensure pollination.

CHERRY: It is best to have at least two cherry trees. Pollinate sweet with sweet and sour with sour.

PLUM, PEACH: It is always best to plant two different varieties for better harvest.

BLUEBERRIES: These require two of different varieties.

BLACKBERRIES, GRAPES, RASPBERRIES, and STRAWBERRIES: do not require pollinators
